

Our **Press Operator** will make a variety of parts using Press Brakes and other machinery under supervision. You will be responsible for performing basic set ups with assistance, and operating various machines to ensure the interminable and efficient running of production.

A great machine operator is reliable and able to work with attention to detail and safety standards. On-the-job training is a good way to discover how to do the job better, we expect our team members to have a willingness to learn and improve. Being a team player is essential since all tasks will require close collaboration with co-workers. The goal will be to ensure that production procedures will be carried on safely to maximize efficiency and profits and meet all part specifications.

Responsibilities

- Demonstrate the Metal Fab Engineering Pillars (Values) in all behaviors and actions
